TRUE CONFIDENCE

Backed by an impressive 65,000 Mile Limited Treadwear Warranty and featuring exceptional all-season traction, the all-new GEOLANDAR CV™ G058 delivers the confidence and reliability you need to keep your vehicle on the road for many seasons to come.

CROSSOVERS, SMALL SUVs AND MINIVANS

Built for crossover, smaller SUV, and minivan owners looking for dependable all-season tires.

RELIABLE WET GRIP

Four circumferential grooves with pass-thru grooves help to evacuate larger amounts of water from under your tires to resist hydroplaning and provide an altogether safer ride.

DEPENDABLE WINTER TRACTION

Specially designed micro silica compound enhances traction to keep you gripping the road all winter long.

EXTENDED TREAD LIFE

An optimized tread profile with chamfered ribs creates the perfect balance of comfort and long wear.

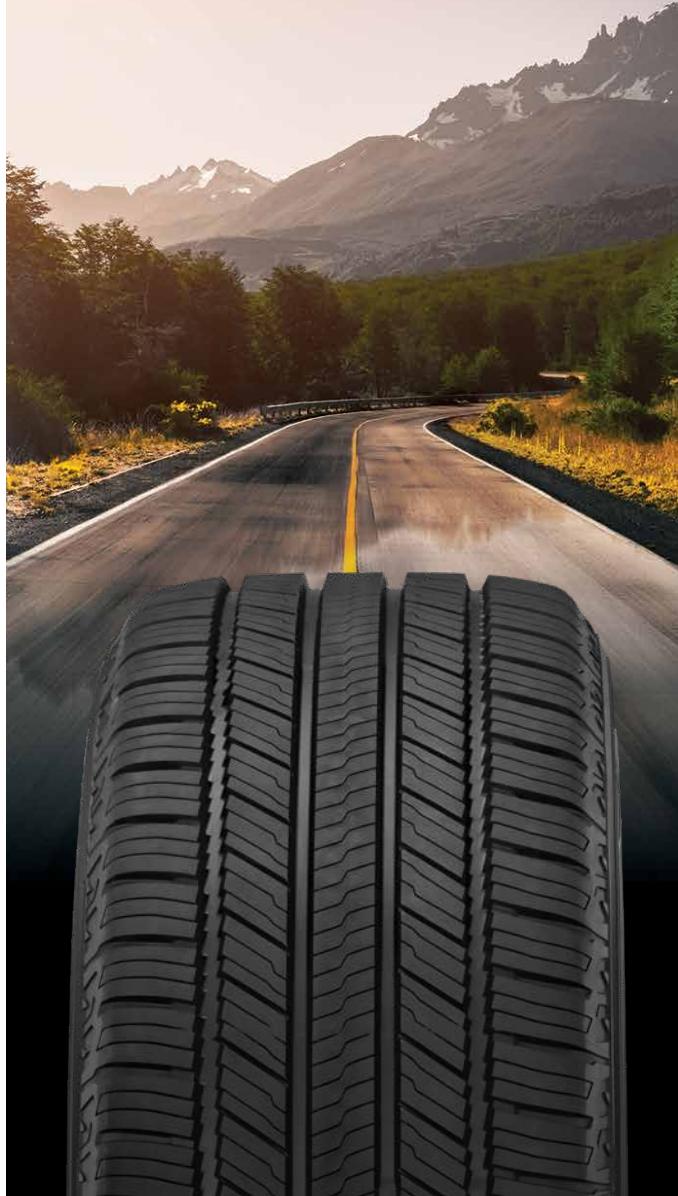

QUIET RIDE

Designed with a five-pitch tread variation to maximize comfort while minimizing road noise.

ALL-NEW

GEOLANDAR **CV™** G058

The all-new GEOLANDAR CV™ G058 is a true all-season tire engineered to deliver complete confidence to drivers of crossovers and SUVs. And with its enhanced wet and winter grip and long-lasting tread life, your daily drive has never been more comfortable.

Superior Wet Traction

Our new CV2 compound working in tandem with the serrated outer groove design provides improved braking and traction in wet conditions without compromising winter traction.

Confident Winter Traction

Hundreds of 2D/3D combination sipes create powerful biting edges giving you the grip you need to handle slick winter roads.

Long Reliable Tread Life

An optimized contact patch ensures even weight distribution allowing for improved comfort and long-lasting wear.

Quiet Ride

A distinctive multi-pitch tread pattern reduces road noise to ensure you have a comfortable, quiet ride.
